

BLADE EDGE TECHNOLOGY

BLADE *Life* MATTERS

AMERICAN EAGLE MANUFACTURING IS THE WORLD'S LARGEST MANUFACTURER OF REPLACEMENT AND RETRO-FIT BLADES FOR BELT CLEANERS IN THE UNITED STATES.

Our proprietary blends and additives are what put our blade compounds a giant leap above the competition, truly making our blades at the cutting edge of the industry.

Mid-2017, AEM developed a new formulation in our lab. After internal testing, we sent a sample set to an independent laboratory. At first, the results were thought to be compromised, due to the abrasion results. So we sent a second sample set....and then a third.

The testing showed a 30% improvement in Abrasion Resistance, over even our original Ev-R-Wear formula, which we knew was great!

WE OFFER THAT EV-R-WEAR BLADE FORMULA NOT JUST FOR THE AMERICAN EAGLE BRAND BELT CLEANERS, BUT FOR MANY OEM BELT CLEANERS AS WELL.

RETROFIT REPLACEMENT BLADES FOR OEM BELT CLEANERS

DON'T BE FOOLED BY ONE - BLADE - FITS - ALL

American Eagle has over 15 different primary blade profile molds and 4 specific extrusions at this time. We also are focusing on secondary replacement blades and retrofits for the industry. You will see more of these segmented replacement blades in Phase 2 of our Blade Edge Technology brochure. We are continually growing our replacement blade options for the industry.

WE'VE JUST BEGUN.

The brochure you are about to see is the most comprehensive information compilation of replacement/retrofit blades available. Countless hours of research have gone into keeping up with competitor trends and changes.

Competitors, you're welcome. 😊
