

BLUE-FLEX™

SKIRTBOARD

URETHANE VS. RUBBER

No Contest!

American Eagle Manufacturing is one of the largest manufacturers of urethane skirtboard in the United States.

WHAT SETS US APART. . . (BESIDES OUR AWESOME PRICING)

Our propriety blend of materials and our state of the art casting equipment

Continuous flow technology

NO SPLICING...

We can manufacture all of our skirtboard sizes and profiles in 50ft lengths with no seams.

We have process controls in place that allow us to check material ratios multiple times per day . . . everyday

Along with a final product check of every roll of **BLUE-FLEX**

We stock standard sizes and make custom sizes, durometers and profiles upon request.

DUST CONTAINMENT

Our URETHANE SkirtBoard is the solution for dust containment in bulk transfer points. Designed to have low coefficient friction that reduces drag, our skirtboard combines a high tensile strength resulting in longer wear and less tearing compared to rubber skirtboard. The benefits extend beyond dust containment to less maintenance cost, less downtime for replacement and less overall belting and motor fatigue.

BENEFITS

- Special 58A urethane compound
- 60% lower coefficient of friction
- Reduced drag
