

NEW AND IMPROVED EAGLE HIGH PERFORMANCE BELT CLEANERS

HP SERIES

Why should American Eagle be *Your* belt cleaner of choice?

Our patented Eagle Torsion system was designed around a heavy-duty stainless steel spring, which provides even and positive tension, unlike those of our competitors.

Instead of using inaccurate, pre-located holes, you'll have the option of a full 360 degree adjustment, allowing for increased accuracy. Held in place by a heavy duty tab on either side, the spring is set in an Eagle Torsion collar, which can be set to the proper tension using either our own indicator rings or a standard torque wrench. Ease of assembly and installation leads to more productive time for your customer.

HP / HD Series

BLADE EDGE TECHNOLOGY

Ev-R-Wear™ BLADE

Late 2017, American Eagle Manufacturing discovered a break through additive that enhances the performance of our Ev-R-Wear™ Blade even further.

Testing at an independent laboratory confirmed 30% better abrasion resistance than our already superior original Ev-R-Wear™ formulation.

HP TENSIONER IMPROVEMENTS

EAGLE TORSION COLLAR

- Engraved for ease of installation
- Square hole for precise torque tensioning
- Multi pilot holes for tension bar tensioning

INDICATOR RING

Increase size for easy reading and enhanced durability

HP TENSIONING BRACKET

Reinforced outer wall with steel and longer tube to accommodate better accessibility for pre-tension of bolt lock and unlock.
