

MODULAR LOADZONE SYSTEMS

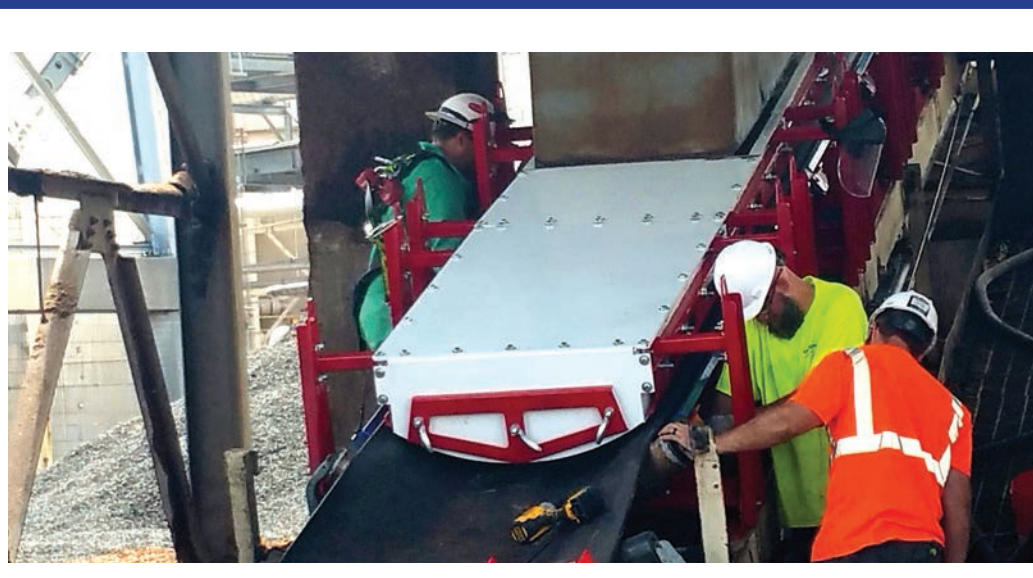

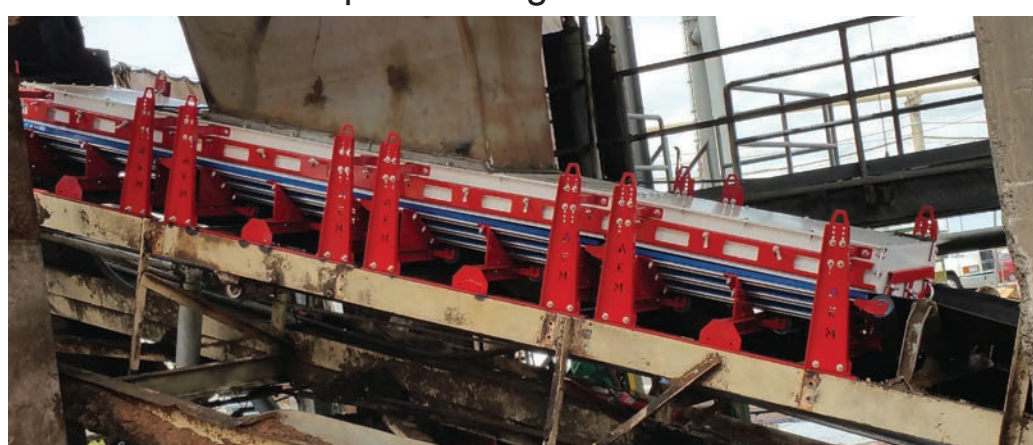

WHATS IN *Your* LOADZONE!

A PICTURE IS WORTH A THOUSAND WORDS

4 days of deconstruction and installing new loadzone complete during bad weather

We had 4 to 5 skilled craftsmen install this loadzone. They did one heck of a job!

(During installation our competitors were driving by constantly taking pictures of the installation) 😊

ITS THE LITTLE THINGS THAT MATTER

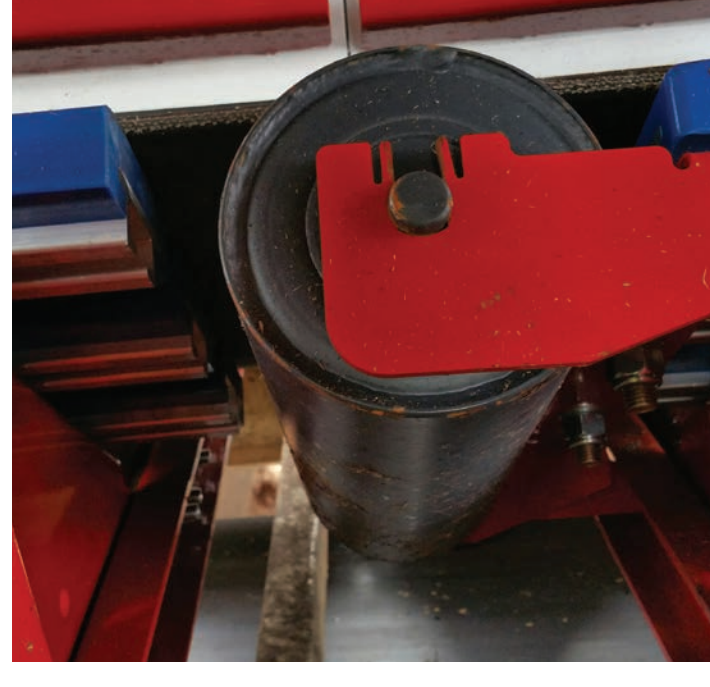

Slide and Roll Beds

- Helps in handling load
- Keeps belts supported for the ultimate seal

Belt Support Matters!

Wing Roller

- Breaks tension on belt to slider bars
- Increase life of slider bars
- Eliminates drag on belt coming into the load zone
- Mounts to bed for easy installation of rollers.
- No extra holes in conveyor frame
- Maintenance friendly

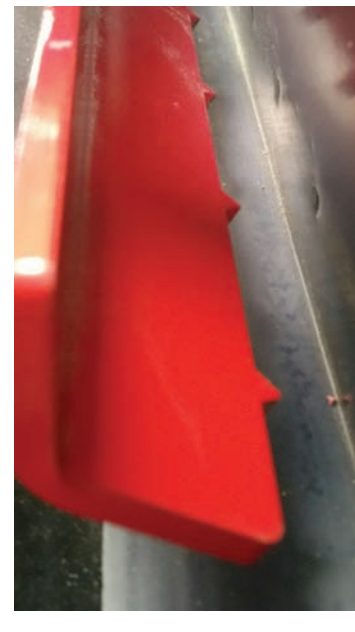

Patent Number 9938087

SEALING IS THE REASON WHY WE DO ALL THIS.

It's the most important part of the equation.

Skirting/Sealing the loadzone issue is what this is all about. We have answers to your questions and solutions to your problems. Our Delta Flex double seal is the paramount skirt board product on the market.

It never lets us down!

EAGLE CLAW CLAMPS. . . SIMPLY THE BEST

The Eagle Claw Clamps have engaging teeth that bite into the skirting. This keeps skirting from moving up due to tears, rips, splices and patches in the belt. This is the only clamp that can do this.

Patent Number 9938087

OMEGA SEAL AND CLAMP

A revolutionary breakthrough unparalleled by anything on the market.
